

# STICK REEL

*Efficiently removes large sticks and foreign material!*

## PRECLEANER > STICK REEL

The KFI Stick Reel removes sticks and large debris from orchard product. Its superior design makes it the most effective system of its kind. The KFI Stick Reel, with its advanced engineering, high capacity and longer dwell time, delivers cleaner product, better reliability, and virtually eliminates the need for operator-dependent tasks.

## Design

A KFI Stick Reel is the first stage in a pre-cleaner system. It rapidly and efficiently removes sticks and other large debris from harvested product. KFI Stick Reels are outstanding in their performance and capacity. Our ingenious cleaning screen is superior to the more common “potato chain” design because it virtually eliminates slowdowns or stoppages caused by debris jams and chain breakage or stretching.

### Process Flow:

- 1 Field-run product enters the Stick Reel
- 2 Cleaning screen carries debris out of the Stick Reel
- 3 Product passes through Stick Reel cleaning screen
- 4 Cleaned product exits to the next stage

Cleaning screen detail

## Specifications

Stick Reel Configuration Options		
	48"	60"
Throughput	50+ Tons per Hour	75+ Tons per Hour
Width (Total)	75"	90"
Length	141"	161"
Height	103"	142"
Motor	2 HP	2 HP

## Full Range of Products Available!

Our complete line of products includes:

- Auger Lines
- Box Dumpers
- Boxing Lines
- Bucket Elevators
- Catwalks
- Cleaning Decks
- Classifiers
- Conveyors
- Detwiggers
- Easylift Elevators
- Gravity Tables
- Hard Shell Crackers
- Hullers/Shellers
- Inhull Storage Tanks
- Precleaners
- Product Elevators
- Sample Crackers
- Sand Screens
- Shear Rolls
- Sizers
- Sorters
- Sorting Lines
- Stick Reels
- Support Structures
- Stainless Piping
- Transfer Hoppers
- And More!
